

DEPARTMENT OF COMMERCE  
BUREAU OF FISHERIES

EEB

Seattle

FEB 24 1920

February 19, 1920.

Memorandum for Mr. Bower:

The Alaska-Pacific Herring Company advise that they did not operate last season. The company was merged with the Southern Alaska Canning Company, which company rendered a report to the Bureau.

All of the other companies mentioned in your letter of February 9 have been advised regarding the necessity of making returns at an early date. The Alaska firms not having offices in Seattle have been wired regarding the matter. It is hoped that the reports from the various firms will be received by the Washington office within the near future.

We have only two statistical blanks on hand. Therefore, if we receive any more inquiries for blanks, it will be necessary to wire the Washington office.
